Eligible studies not included in integrated dataset

Inclusion of each study in the integrated data set required that the investigator could be contacted and that the investigator agreed to perform the considerable work required to provide the study's subject-by-subject data in a format that could be transferred to the CBQC data base. In many cases, personal relationships between the CBQC team and the investigator were helpful in facilitating data contributions.

The following studies were initially identified as eligible but ultimately were not included in the integrated database (reason identified below).

Bronchodilator (n = 5)

The following studies were not included because the study sponsor was not able to transfer the participant-level data:

- Worth H et al. *Respir Med* 2010; 104:1450-1459
Beeh KM et al. *COPD* 2011; 8:340-345
O'Donnell DE et al. *Respir Med* 2011; 105:1030-1036
Beeh KM et al. *Int J COPD* 2012; 7:503-513
Beeh KM et al. *Respir Med* 2014; 108:584-592

Exercise Training (n = 16)

The following studies were not included due to a lack of response from the Investigator:

- Mador MJ et al. *Chest* 2004; 125:2036-2045
Mador MJ et al. *Chest* 2005; 128:1216-1224
Mador MJ et al. *J Cardiopulm Rehab Prev* 2009; 29:126-132
Scorsone D et al. *Chest* 2010; 138:1133-1139
Mador MJ et al. *J Cardiopulm Rehab Prev* 2011; 31:52-59
Mador MJ et al. *J Cardiopulm Rehab Prev* 2012; 32:155-162
Mador MJ et al. *J Cardiopulm Rehab Prev* 2014; 34:54-61

An outreach to the respective Investigator was not attempted for the following exercise training studies, since the CWRCE WG Co-chairs had determined that a sufficient number of studies/subjects were already included into the integrated database:

- Goldstein RS et al. *Lancet* 1994; 344:1394-1397
Collins EG et al. *J Rehabil Res Dev* 2003; 40:35-44
Ong KC et al. *Respir Care* 2004; 49:1498-1503
Broekhuizen R et al. *Thorax* 2005; 60:376-82
Leung RW et al. *J Physiother* 2010; 56:105-112
van Wetering CR et al. *J Am Med Dir Assoc* 2010; 11:179-187
van Wetering CR et al. *Thorax* 2010; 65:7-13
Klijn P et al. *Am J Respir Crit Care Med* 2013; 188:193-200
Santos C et al. *Respir Care* 2015; 60:1603-1609

Studies not eligible for inclusion in integrated dataset

The CWRCE working group co-chairs (academic: Dr. R. Casaburi; industry: Dr. A. Hamilton) classified the following studies as not eligible for inclusion in the integrated database. Reasons for exclusion included: (i) limited duration (e.g., single dose) bronchodilator studies, (ii) exercise training studies with a small number of subjects performed by unfamiliar authors, non-standardized tests, etc., (ii) non-endurance training interventions, unsupervised home training, etc.

Bronchodilator (n = 26)
